DETAILED ACTION

Allowable Subject Matter

Claims 11-21 are allowed.

In regard to claim 11, the prior art does not teach or render obvious measuring anode currents corresponding to the applied substantially linear increasing voltages; determining a maximum current and the corresponding applied voltage from the measured currents; and setting the voltage applied to the anode to the corresponding applied voltage at which the current is substantially at its maximum and in the combination as claimed.

Claims 14-17 further limit allowable claim 11, and, therefore, are also allowable.

In regard to claims 12 and 13, the prior art does not teach or render obvious an ammeter that measures anode currents corresponding to the applied substantially linear increasing voltages; means for determining a maximum current and the corresponding applied voltage; and a means for setting the applied voltage to the corresponding applied voltage at which the current is substantially at its maximum and in the combination as claimed.

Claims 18-21 further limit allowable claims 12 and 13, and, therefore, are also allowable.
